SECTION 1 - ULTIMATE SEO BACKLINK RESOURCES

1. SEO RESOURCES

www.fiverr.com & www.odesk.com (great outsourcing websites)

- For these sites, you become like the contractor who hires the expert to do the work.
- The BEST WAY to succeed at finding the RIGHT PEOPLE in outsourcing websites is to hire multiple people for ranking videos with the same keyword. Then, see who gets the best results. Whoever gets you the best results, stick to them as part of your list of good SEO services.
- For example, create 5 separate videos on same keyword. Then give each SEO provider 1 video to rank for that one keyword. See who does the best and then hire the best to do SEO work for you for the long run.

IMPORTANT NOTE:

- Do NOT Ever buy gigs that sell fake youtube views, fake likes, or fake subscribers, fake favorites by robots or softwares. I have tested those and they don't work. Worst case, sometimes the videos get taken down by youtube. So I do NOT recommend those type of SEO work. Again, we do NOT recommend any service that gives fake youtube views, likes, and subscribers. We have tested it and it doesn't work for long run and sometimes the videos can be taken down by youtube.
