SECTION II - OTHER ULTIMATE SEO BACKLINK RESOURCES

www.blackhatlinks.com

- Another recommended SEO backlink service that gives you fast quality backlinks. I have heard many users use this service and get great results and achieve ranking on the top of the search engines for quite competitive keywords.

www.rankborn.com

- BJ Min's exclusive HIGH QUALITY SEO service where we do the SEO work for you. We are not competing with other lower priced seo services. We take our time to listen to your needs, research your keywords, and do the work to rank your videos on TOP of the search engines. We do not guarantee it will work all the time but all we can say is that we know what to do in this business and this is a private SEO company that only works with HIGHER END clients. Our budget is in the higher end and that is because we only want to work with serious online business owners who focus more on results and not on the price.
- I personally use this service for my own business as well. We do not accept certain niches such as porn, gambling, MLM, business opportunities, personal development, internet marketing, etc. We only service a LIMITED amount of clients and this is via APPROVAL only. You must be approved based on your budget, niche, etc for us to work with you because we only want to work with those who are serious and stay aligned to our mission of getting results. For more information, go to www.rankborn.com.
